2015
ANNUAL REVIEW
REPORT

New eTracking tool

De Gruyter implemented new eTracking tool that gathers more complex statistical data than before. Usage and downloads are drafted in a different way than in previous years and as the result cannot be easily compared with the former reports.

In Annual Review Report 2015 you will find the following data:

1) **Content usage**, separately for visitors and page impressions:

- Page impression - the total number of times a specific website has been accessed. Page impression happens anytime a page is loaded through the browser.
- Visitor - an individual user who has accessed the site; determined by the IP address of a computer or device that the he or she browsed from. If a visitor uses the same device and same browser each time to access the website, only one unique visit is counted.

2) **Event usage**, gives an overview about the clicks that users did on journal pages – event usage presents downloads of content, flyer and other various documents available in supplementary information:

- Clicks - the total number of times full-text versions of articles were downloaded
- Unique clicks - the total number of times full-text versions of articles were downloaded by individual users (visitors).

Please note: since eTracker provides two numbers in relation to readership (divided between total amount and amount of unique users), it is not possible to assess the increase in readership in the same way as in previous years.

JOURNAL PAGE	VISITORS	PAGE IMPRESSIONS
Product page	761 (EN), 49 (DE)	1040 (EN), 66 (DE)
Content page	3314 (EN), 120 (DE)	4583 (EN), 270 (DE)
EN – English language version		
DE – German language version		

EVENT TRACKER	CLICKS	UNIQUE CLICKS
Full-text downloads	1154	827
Flyer	9	8
Instructions for Authors and Style Sheet	36	33
Formular de Recenzare	4	4
